## The Muffin & Scone Co. Website

### Overview

This repository contains the source code for **The Muffin & Scone Co.** website. It is a multi-page responsive site built with **HTML5** and **CSS3**. Each page has its own dedicated stylesheet for modularity and clarity.

### Pages

- index.html → Home page with hero, features, and product highlights
- about.html → About page with company story, mission, and team profiles
- products.html → Products page with muffins, scones, drinks, combos, and customizable cakes
- enquiry.html → Enquiry form for product/catering requests
- contact.html → Contact page with store locations, maps, and business hours

### CSS Files

- css/style.css
- css/about.css
- css/products.css
- css/enquiry.css
- css/contact.css

Each CSS file is self-contained and styles only its corresponding page.
